

GDS Integration

Meetingmax reservations transfer to Hotels via
North America's #1 GDS solution.

Benefits

Reservation Accuracy

No more requirement to log into the Meetingmax system, reservations sent directly to your hotels Property Management System (PMS) ready to go.

Secure Data Transfer

Seamless and secure data transfer from system to system protecting attendees private information such as personal and credit card details.

Reduce Workload

Focus on other important tasks rather than spending time uploading Rooming Lists and processing changes or cancellations to reservations.

Contracting

A mutual understanding and compliance with both client and hotel requirements.

Rate Loading

Build the Rate Access Code in the CRS and make it viewable under the Meetingmax Pseudo City Code (PCC).

Group Block in PMS

Create a Group Block in the PMS using the designated GDS Rate Code.
